THANK YOU

Multiple sclerosis interrupts the flow of information between the brain and body and stops people from moving. We believe that moving is not just something you can or can't do, but that moving forward is who we are.

Just by being here, you are connected to the potential, the hope, the momentum of it all. With the help of people like you, the National MS Society addresses the challenges of each person whose life is affected by MS and helps them stay connected to the great big moving world.

Join the Movement at www.nationalMSSociety.org.
